

Aspire DSS Console

Communication without Compromise

The DSS Console gives a system phone user additional 24 or 110 keys.

These keys provide a Busy Lamp Field and on button access to extensions, trunks and system features. This saves time for users that do a lot of call processing such as operators and receptionist.

The 110 key DSS also has fixed features keys that simplify functions such as:

- Calling Extensions
- Calling Door Boxes
- Placing Calls
- Answering Calls
- Transferring Outside Calls
- Making an External Page
- Making an Internal Page
- Switching on the Night Service Mode
- Activating DDS Console Alternative Answer

In addition, it provides DSS Console Alternative Answer. The Alternative Answer lets the user re-route their calls quickly to another co-worker. When the user places their console off-duty, their calls will be automatically routed to their programmed co-worker.

DSS and the Hotel

The DSS Console is a great benefit in a hotel environment because in Hotel Mode the busy lamp keys will show the status of the Hotel room extensions, check in and check out, wake up calls and room status.

Key Features of the 110 DSS Console

The 110 key operator position connects to any of the 24 key terminals. Moreover, can be extended up to four units.

You can also program the DSS Console keys to Store function codes. This provides the DDS Console user with many extra features.

- 100 Extensions Status Indication
- 200 Extensions Status Indication using the shift key
- Alternative Answering Key
- Night Service Select Key
- Hotel Receptionist Option
- ACD Supervisor Option
- Central Office Calls – Answering and Pacing
- Door Box
- Night Service
- One Touch Calling
- Internal Paging
- External Paging
- Programming Functions

Little Cost, Big Features

The 24 DSS Console is the ' low cost ' Operator Console for the smaller business or department.

This console works on all the Aspire Key Telephones.

It provides an additional 24 programmable function keys that can be programmed with any of the features available. In addition, a benefit to the 24 Key Console is that it can be added to a keyphone without any system resource.
