

Softphone

A true business telephone

The Aspire Softphone is a business phone that works on a Personal Computer.

It enables various telephony functions using a VoIP network connecting to the Aspire Telephone Systems. Allowing the user to capitalize on the advantages of a converged voice and data network whether they are in the office or on the road. A fully flexible solution where you have your telephone extension where ever you go.

An ideal solution for employees who are out of the office frequently.

Making a call from your Aspire Softphone is easy! Rather than using a separate keystation, the Aspire Softphone allows you to make and receive calls using your PC.

The Aspire Softphone functions include not only making and receiving calls, but also placing calls on hold, internal calls and conferencing.

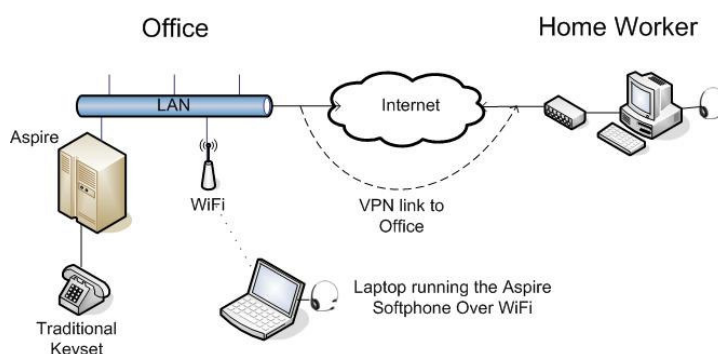

There are many different ways to make a simple call using the Aspire Softphone.

- Use the keyboard
- Clicking on the Telephone Icon
- Entering a name from the phonebook
- Selecting an entry from the phonebook
- Using a dial pattern
- Using a USB handset
- Using a Wireless headset

Advanced Functions

As well as all the key functions, you would expect from an Aspire handset the Softphone also allows video conferencing, and you are able to use the Aspire Softphone in any Wifi Hotspot.

Easy Phonebook Migration

In addition, it provides for easy phonebook migration from other applications.

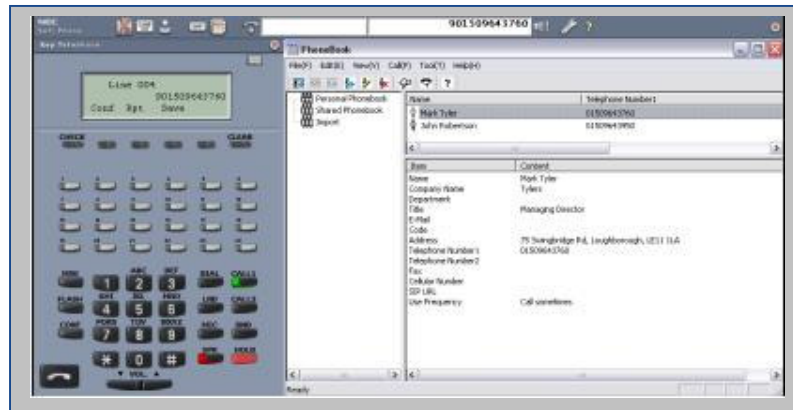

This Phonebook can be either individual on your own PC or it can be used as a shared Phonebook, located on an online server, so that you can share customer information with others. Therefore, you have access to your corporate directory with a single click of your mouse.

It is not just a phone number that can be stored; the Aspire Softphone Phonebook can store personal or shared information such as Company Name, Address, 2nd Contact Number, Facsimile and Email Address.

The Aspire Softphone also allows you to import and export data from the Phonebook.

The Aspire Softphone is equipped to deliver full-featured telephony to your desktop with all the capabilities and functions that you would expect from an Aspire Key Station.

Designed to meet the diverse customer needs as a primary desktop telephone. With the Aspire Softphone, there is no need to have more than one telephone number in order to be reached; you can now take your extension with you where ever you go!
